Abstract	The increase of refugee status claiming immigrants in Canada has led to a review of the immigration policy concerning this group. This report looks at the weaknesses of current legislation which is linked to the Geneva Convention and its Protocol, studying Canada's past adherence to the rights afforded under its protection. Also discusses public and government opinion on support for a humanitarian and generous refugee policy and questions of balancing efficiency with procedural fairness to claimants. Gives a chronology of events since 1969.

Résumé	Le processus de reconnaissance du statut de réfugié au sens de la Convention de Genève, tel qu'il est énoncé dans la Loi sur l'immigration, sert à déterminer si les personnes qui revendiquent ce statut y ont effectivement droit et peuvent bénéficier de la protection accordée aux réfugiés au sens de la Convention. Ce processus s'est avéré inadéquat, tant au point de vue juridique que pratique. Dans ce bulletin, on examine les mécanismes en vigueur actuellement et le projet de réforme contenu dans la loi C-55 déposé en mai 1987.

Introduction

The **Canadian Research Index - Microlog** puts all of Canada's hard-to-find government and research literature at your fingertips. **Canadian Research Index** in print is a monthly indexing service. An electronic version on CD-ROM or via the Internet is also available. **Microlog** represents our fulltext document service. Most titles included in **Canadian Research Index** are available in paper as well as microfiche format. Together, these services are a powerful tool for finding Canadian report publications.

The **Canadian Research Index** includes scientific and technical research papers in physical, natural and social sciences. It also includes policy papers, important statistical publications, and annual reports.

Documents issued in English or French are catalogued, indexed and abstracted in the language of the publication, while bilingual documents are catalogued, indexed and abstracted in both languages. As of 1998, abstracts are only available with electronic versions of the index.

Every effort is made to ensure the currency of the index. For instance, documents appearing in the checklist of Canadian Government Publications are delivered by the **Microlog Service** approximately two months after publication of the list.

SOURCES

- government publications from the federal, provincial and municipal levels
- depository publications of reference value
- non-depository publications issued by government organizations, laboratories and research centres
- non-profit organizations, educational institutions and research groups
- some monographs and serials issued by Statistics Canada

ORGANIZATION

Canadian Research Index comprises the following sections:

Title index: A full bibliographic citation for each title.
Corporate name index: Access by controlled format corporate names based on Canadiana Authorities.

Personal name index: Access by personal name.

Subject index: Subject terms based on Library of Congress and Canadian Subject Headings are assigned to each document. A cross-referencing structure assists searchers.

Series titles: Lists by title and numbers all reports in a series; series are available as an on-going subscription or retrospective collection.

Microfiche collections: Lists contents of each fiche collection for quick reference. These collections can be used as current awareness lists in broad subject areas to notify users of new acquisitions.

ELECTRONIC ACCESS

The full **Canadian Research Index** file from 1982 to date is available in electronic formats on the SilverPlatter SPIRS platform. It is accessible on CD; it may be licensed for network use on a local server or on a SilverPlatter ERL server; and it is available for Internet subscription. Reports may be ordered through the National Technical Information Service in the U.S.A., or directly through **IHS/Micromedia's Global Information Centre**. All catalogued documents issued by Statistics Canada are now included in electronic versions of **Canadian Research Index**. For information, contact **IHS/Micromedia's** CD Centre at 1-800-387-2689.

DOCUMENT DELIVERY

The unique **Microlog Accession Number** is the key to immediate retrieval of any document. Most documents cited in **Canadian Research Index** are available as part of the **Microlog Microfiche Subscription Service**. Institutions may subscribe to complete or partial collections of the documents in the Index. Individual copies on microfiche or paper reprints may be ordered through **IHS/Micromedia's** Document Delivery Service. To order, please contact:

Introduction

Microlog : Index de recherche du Canada met à votre disposition toutes les publications du gouvernement et les travaux de recherche difficiles à se procurer. L'**Index de recherche du Canada** imprimé est un service mensuel d'indexation. Une version électronique est également offerte sur CD-ROM ou dans Internet. **Microlog** représente notre service de documents en texte intégral. La plupart des titres figurant dans l'Index sont disponibles sous forme imprimée et sur microfiche. Ces services combinés constituent un outil très efficace pour retrouver les publications des différents gouvernements du Canada.

L'Index contient entre autres des recherches en sciences physiques, naturelles et sociales, des énoncés de politique, des statistiques et des rapports annuels.

Les ouvrages publiés en français ou en anglais sont indexés et résumés dans la langue de publication; les ouvrages bilingues sont traités dans les deux langues. Les résumés sont disponibles exclusivement dans les versions électroniques de l'index dès l'an 1998.

De vastes efforts sont déployés pour assurer la pertinence de l'index. Par exemple, on peut obtenir les documents qui figurent sur la Liste des publications du gouvernement du Canada environ deux mois après leur parution sur cette liste.

SOURCES

- publications fédérales, provinciales et municipales
- publications déposées servant de référence
- publications non déposées publiées par les organismes gouvernementaux, les laboratoires et les centres de recherche
- publications d'organismes à but non lucratif, d'établissements d'enseignement et de groupes de recherche
- certaines monographies et publication en série publiées par Statistique Canada

ORGANISATION DE L'INDEX

L'Index de recherche du Canada comprend les sections suivantes :

Index des titres: tous les titres sont catalogués.

Index des dénominations sociales: donne un accès par dénominations sociales fondées sur les vedettes d'autorité du service Canadiana.

Index des noms: donne un accès par auteur.

Index des matières: des descripteurs fondés sur les vedettes matières des documents Library of Congress

Subject Headings et Canadian Subject Headings sont associés à chaque publication; un réseau de renvois facilite la recherche.

Titres de collections: tous les rapports publiés en série sont classés par titre et numéro. Ces documents sont disponibles par le biais d'un abonnement permanent et ils sont aussi intégrés à une collection rétrospective.

Collections de microfiches: chaque collection apparaît dans une section séparée pour faciliter la recherche. Ces listes peuvent aussi servir à renseigner les usagers sur les nouveautés.

ACCÈS ÉLECTRONIQUE

Le fichier complet de l'**Index de recherche du Canada**, de 1982 à aujourd'hui, est disponible sous forme électronique à partir de la plate-forme SilverPlatter SPIRS. Il est offert sur CD-ROM et il est possible d'obtenir des licences d'utilisation en réseau pour un serveur local ou pour un serveur SilverPlatter ERL. Il est également disponible par le biais d'un abonnement Internet. Les rapports peuvent être commandés par l'intermédiaire du National Technical Information Service aux États-Unis ou encore directement au **Global Information Centre de IHS/Micromedia**. Tous les documents catalogués publiés par Statistique Canada sont intégrés dans les versions électroniques de l'**Index de recherche du Canada**. Pour plus de détails, contactez le personnel de **IHS/Micromedia** au 1 800 387-2689.

LIVRAISON DE DOCUMENTS

Le numéro d'accès unique de **Microlog** est la clé qui permet de repérer immédiatement tout document. La majorité des documents cités dans l'**Index de recherche du Canada** sont offerts par le service d'abonnement aux microfiches de **Microlog**. Les organismes peuvent s'abonner à l'ensemble ou à certaines des collections de documents de l'Index. On peut également commander des reproductions de documents sur microfiches ou sur papier par l'intermédiaire du service de livraison de documents de **IHS/Micromedia**. Pour commander, communiquer avec:
